B.Tech, Artificial Intelligence

Address : 77, Saint Rozario Street, Muthialpet,  
Pondicherry, Puducherry, INDIA -605003

## Education

### SRM IST-Kattankulathur

B.Tech · Artificial Intelligence

2026

CGPA - 7.59/10

### The Study L'école Internationale

Class XII - CBSE

2022

Percentage - 69.4%

### The Study L'école Internationale

Class X - CBSE

2020

Percentage - 76%

## Projects

### Lecture Summarizer & Recipe Generator using OpenAI API (2025)

Developed an AI-powered application to summarize lecture transcripts and notes using **OpenAI GPT models**. Incorporated context-aware summarization and keyword extraction. Extended functionality to **generate custom recipes** based on user-provided ingredients, showcasing multi-domain LLM applications.

*Tools:* Python, OpenAI API, Flask, LangChain

### EcoRewards: Waste Collection & Reward Management Platform (2024)

Designed and implemented a **full-stack waste collection platform** to encourage sustainable waste disposal.

- **User Features:** Profile management, burnable waste tracking, rewards dashboard, and pickup schedule.
- **Admin Features:** User & reward management, pickup logistics, trend analysis, and financial reporting.

*Tools:* Python, Flask, MySQL, HTML, CSS, JavaScript

### Car Damage Detection using YOLO & OpenCV (2023-2024)

Trained a YOLO model to classify car damage from images with real-world deployment in mind. Performed dataset cleaning, annotation, and evaluation for precision and recall.

*Tools:* Python, OpenCV, TensorFlow

### Swarm Drone Navigation using DQN (2024)

Built a reinforcement learning model for autonomous drone swarm navigation in dynamic environments using Deep Q-Networks. Implemented multi-agent coordination and reward-based optimization.

*Tools:* Python, PyTorch, OpenAI Gym

### Healthcare Chatbot using RAG & Flask (2025)

Implemented a medical FAQ chatbot using Retrieval-Augmented Generation and FAISS vector search for accurate, knowledge-grounded answers.

*Tools:* Python, FAISS, LangChain, Flask

## Certifications

- ❑ **Complete Bootcamp in AI, ML & Data Science - Udemmy (2024)**
- ❑ **Programming in Java - NPTEL (2023)**
- ❑ **Database Management System - NPTEL (2024)**
- ❑ **Privacy and Security in Online Social Media - NPTEL (2025)**
- ❑ **LLM Engineering: Master AI, Large Language Models & Agents - Ongoing**

## Volunteering

**Balasanthi Siddha Hospital and Research Institution**  
Child care volunteer

Jun 2024 – Jul 2024

## Extra Curricular Activities

- ❑ **Member, NextGen AI Club**
- ❑ **Technology hobbyist: Enthusiastic about custom ROM flashing,**

## Skills

Programming Languages: Python, C, C++, Java (basic), SQL  
Frameworks & Libraries: TensorFlow, PyTorch, OpenCV, Flask  
Tools & Technologies: YOLO, Git/GitHub, VS Code, MongoDB, MySQL, CNNs  
Areas of Interest: Machine Learning, Natural Language Processing, Generative AI, Cloud & AI

## Languages

English [Professional Working Proficiency], Tamil [Native Proficiency] , Sourashtra [Native Proficiency]
